REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The Examiner agrees with Applicant's arguments, specifically, the following statement was persuasive:

"As can clearly be appreciated in Figs. 1-3 of "Vainstock", first (75) and second (76) guiding elements respectively guide the first extremes (43 and 47) of the first (50) and second (52) movable links along trajectories that, in spite of being parallel, are situated over different straight lines (75 and 76), not over a unique same straight line, as it has explicitly been expressed in the characterizing portion of independent claim 18."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Applicant is advised that the drawing objection has been withdrawn. The argument found on page 5, line 4 to page 6, line 5 was found to be persuasive. As a result of the withdrawal of the drawing objection and upon reconsideration of the referenced section of the specification, the 35 USC 112 – 1st paragraph rejection has also been withdrawn.
